

I am happy to offer ACS members the Seed Exchange list for 2018.

2018 brought some health issues for my wife including heart surgery, she did great through it all and we are both looking forward to a year with no trips to any hospital for any reason!

The way the year worked out I had no time to make my trips to nurseries and the Oregon Garden and had to rely on others to make collections and send them to me. I am happy to say that the contributors did an amazing job! Peter Gregg (Iseli Nursery, OR), Gerry Donaldson (Hidden Lake Gardens, MI) and Brandon Johnson (Vans Pines Nursery, MI, collected at Gee Farms) all made great donations. I have also struck up a long-distance seed exchange with Benoit Klein in Gendrey, France. Benoit was interested in some of the seed from the exchange and offered a trade, you will see what I received from him on the list. I am looking forward to continuing communications with Benoit.

Without the people above this year's exchange would have only been leftover seed from last year.

Thanks Peter, Gerry, Brandon (and Gary Gee) and Benoit—I can't wait to see you this year as I get back to doing my own collections.

Please be sure to mark your first selections with a circled number of packets you would like ① and your ALTERNATE choices by marking with the number of packets and a checkmark 1✓. WITHOUT ALTERNATE SELECTIONS I WILL USE MY BEST JUDGMENT FOR SUBSTITUES.

For this year, the price is \$1.50 per packet, with a \$9 minimum. Do not send cash; make checks payable to: American Conifer Society. If you know someone that requires a printed copy of the list, please ask them to send a self-addressed stamped envelope to me and I will get them a list, or you can download and print from this site. Please remember that seed donated is open pollinated.

Orders are filled in the order that they are received.

Number of seeds per packet varies based on inventory.

If you are interested in donating seed or cones, please see this page for more details.

For information on how I stratify and germinate seed, send me an email at TreeGuy45@comcast.net
